ANTIVIRUS PLUS	INTERNET SECURITY	TOTAL SECURITY
		Antivirus & Antispyware

Essential Silent Security

Bitdefender Antivirus Plus 2012 provides silent security against viruses, spyware and phishing attempts. It also includes innovative social networking safeguards.

ANTIVIRUS PLUS 2012

Engage Autopilot for silent security.

Active Virus Control – Monitors processes' behavior while they are running to detect new & unknown viruses

Vulnerability Scanner – Checks for missing or outdated security software as well as potentially unsafe system settings

Improved! Search Advisor – Gives advance warning of risky websites right in your Google and Bing search results

Personal Data Filter – Prevents critical data, such as your social security number, from ever leaving your computer.

Antiphishing – Blocks websites supporting various scams or credit card phishing attempts

Chat Encryption – Keeps your conversations private on Yahoo! and MSN Messenger

Enhanced Silent Security

Bitdefender Internet Security 2012 integrates antivirus, antispam, antiphishing, firewall, parental controls, and social networking safeguards into the perfect silent security solution for Internet-connected families!

INTERNET SECURITY 2012

Engage Autopilot for silent security.

Everything that's available in Antivirus Plus, and more:

Antispam – Stops unwanted e-mail from reaching your Inbox

Two-way Firewall – Monitors your Internet connections and keeps strangers from accessing your Wi-Fi connection

Parental Control – Blocks inappropriate content, restricts Web access between certain hours, and helps parents remotely monitor their children's online activity

Ultimate Silent Security

Bitdefender Total Security 2011 offers ultimate silent security for the net-centric lifestyle, fighting every category of e-threats with best-of-breed technologies.

TOTAL SECURITY 2012

Engage Autopilot for silent security.

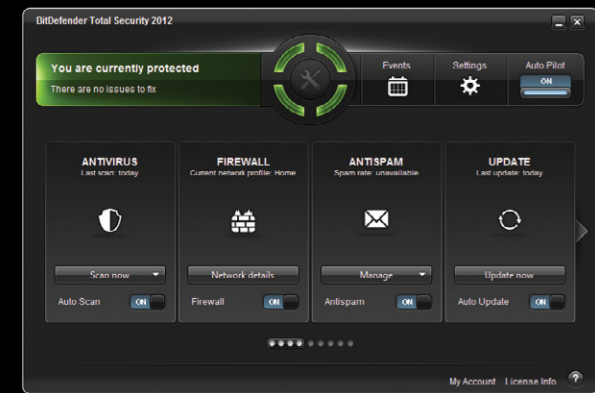

Everything that's available in Internet Security, and more:

File Shredder – Ensures that no traces of your deleted sensitive files remain on your PC

File Encryption – Locks up confidential files in an encrypted vault

Tune-Up – Removes unnecessary files and registry entries, for optimized performance

New! Safebox – Automatically backs up files and folders to a secure remote server and allows file sync between your computers.

WHAT'S NEW IN BITDEFENDER 2012

New! Autopilot – provides a hassle-free experience by making optimal security-related decisions without input from you. This means no pop-ups, no alerts, nothing to configure.

New! Social Network Protection – Bitdefender filters social-networking specific e-threats by scanning the links you receive from your Facebook and Twitter friends, monitors your privacy settings, and much more!

New! Scan Dispatcher – finds and uses time-slices when system resource usage falls below a certain threshold to perform recurring scans of your entire system. This way Bitdefender does not interfere with your computing activities and does not impact system responsiveness.

New! Safebox – monitors your important files and instantly backs them up to a secure remote server whenever a change is detected. Backed up files become available to your other computers on which Bitdefender is installed. Bitdefender Total Security comes with 2 GB of free storage.

New! Rescue Mode – if e-threats, such as rootkits, cannot be removed from within the Windows operating system, the computer is re-booted in Rescue mode—a trusted environment which is then used for cleanup and restoration.

New! Virtualized Browser – Isolates the browser from the operating system in a Bitdefender-provided environment to block web-based threats.

MINIMAL SYSTEM REQUIREMENTS
Operating System: Microsoft Windows XP SP3 (32-bit), Vista (SP2), Microsoft Windows 7 (SP1)
Available free hard disk space: 1.8 GB
CPU: 800 MHz
